## ABOUT THE NFP COMPANY

THE PHOENIX RISING FOUNDATION LTD was created to build free retreats around Australia for broken veterans and - abused, neglected, suicidal and homeless children.

Our intention is to provide a safe space where they can heal, be educated, evolve and be empowered to create opportunities and build a new life.

### MISSION

---

I created our National Campaign 2BUCKTUESDAY.COM(TM) for all Aussies who could value the welfare of our broken veterans and children and commit to pledging 2Bucks a week. My vision is to find 5 million Aussies who believe that they are worthy and not forgotten.

### VALUES

---

We value the welfare of every broken human being and we are intentionally working towards reducing ADULT TRAUMA & SUICIDES. Our intention is to set it up & build overseas in the future. Each country will be working towards the same goal and providing exchange programs and employment.

We build from there.
